Product features and performance description

1) Product features and storage conditions

【 Product features 】 The product is simple and can be applied topically to patients with plantar fasciitis and pain

【 Storage conditions 】 This product should be stored in a room with no more than 80% relative humidity, no corrosive gas and good ventilation to avoid high temperature

2) Using the operating

【Application Instructions】

STEP 1: Install the bracket. Unscrew the bracing circular retainer (c & e) of the bracelet chain and put the height adjusting rod (a) into the inside of the adjusting seat (b), Then fix the circular fixture of the arm on the shoulder plastic bracket (d) Use the screw (f) to lock (Fig1a~1b).

STEP 2: Install the liners. Install the liner in the appropriate position (Fig2c~2d).

STEP 3: Adjust the brace (Fig 3c). Place the shoulder support at a point under the armpit and fix it with your hands.

A) Adjust the height of the waist bracket (g) to the waist.

B) Then adjust the height adjusting rod (a), according to the patient's needs and tighten the screws on both sides of the adjusting seat with tools so that the adjusting rod is fixed to the (h).

C) Adjust the length of the bracelet chain (j &i) and then tighten the adjusting screws to ensure the safe use of the braces.

D) Adjust the flexion and extension angle of elbow (k-Rotate).

STEP 4: Fasten the straps. When fixing the straps, the retainer should maintain a supporting state to prevent the brace from moving. First put the binding sleeve on the strap # 1 (longest).

Fasten the straps through the strap buckle, magic fasten around each part of the strap and fasten it through another strap buckle (Fig. 4F).

The order of straps is as follows:

Strap# 1: Tie the shoulder and fix the brace..

Strap # 2: Fasten the upper body.

Strap # 3: Fasten the waist.

Strap # 4: Fasten your elbows.

Strap # 5: Fasten the middle of the wrist and elbow.

Strap # 6: Fasten your wrists.
